-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Per Amdt. Filed 9-11-2003, claims 37,40,41,44,47,53,59,66,69,70,73 and 76 are pending in the instant case.

The instant office action contains Initialed , signed PTO-1449.

16

Claims 37,40,41,44,47,53 and 59 are product by process claims.

Product by process claims are based on product itself eventhough such claims recite process steps and thus the products in such claims are unpatentable if they are the same as, or, obvious from, the product of the prior art, even if the prior product was made by different processes. In re Thorpe et al, 227 USPQ 964(1985); In re Marosi 218 USPQ 964(1985). See MPEP 706.03(e).

17

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

18

Claims 37,40,41,44,47,53, 59 , 66 and 76 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakatani et al(US 6096411).

The cited reference teaches the claimed invention comprising a clad board- col 2, lines 23-64; see entire reference.

19

Art Unit: 1774

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

21

Claims 66,69,70,73 and 76 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakatani et al(US 6096411) alone.

The cited reference substantially teaches the claimed invention- col 7, lines 54-62; col 8, lines 9-20; col 7, lines 64-66; col 9, lines 9-19; col 16, lines 11-20. while the reference is silent in regards to having the additional layer material be same as the impregnating resin material, it is submitted that the cited reference's would indeed be constructed as claimed, in the absence of unexpected results. This is clearly seen in col 8, lines 55-64. here the paste impregnates the substrate and forms on either sides thereof. Concerning claims 69,70 and 73, likewise, it would have been obvious to the skilled artisan to manipulate the respective densities of the material via manipulation/working the respective layers/substrate- col 6, lines 11-19.
